Bandung, Jawa Barat

I am a Fresh Graduate in Information Systems with a GPA of 3.83 and a strong interest in technology and business. Through academic projects and hands-on experience, I have developed strong analytical, communication, and problem-solving skills, as well as a solid understanding of IT products. I am a fast learner, adaptable, and thrive in collaborative environments. I am committed to contributing to organizational success by delivering value, building strong relationships, and continuously improving my knowledge and skills.

Experiences

PT. Digital Sarana Intimedia - **Jakarta** Jan 2026 - May 2026

Freelance - Fullstack Laravel

- Developed a Career Website to manage and publish job vacancies, providing a centralized platform for recruitment information.
- Built a Room Booking System to streamline meeting room reservations and prevent scheduling conflicts between departments.
- Developed a DSI Test Platform for online employee assessments, enabling candidates to complete recruitment tests digitally while simplifying the evaluation process for the HR team.
- Collaborated with stakeholders to gather requirements, develop features, perform testing, and deploy web applications that addressed real business needs.

Pengadilan Tinggi Agama Bandung - **Bandung** Feb 2025 - Apr 2025

Internship - Frontend Web

- Assisted the development team in frontend web development tasks during the internship.
- Contributed to the redesign of the PPID (Public Information and Documentation Officer) website, improving its user interface and user experience.
- Implemented responsive web pages using React.js and Tailwind CSS based on the provided design requirements.
- Collaborated with the team to support website development, testing, and UI improvements.
